Education

Université du Québec à Chicoutimi — Aug. 2023 – Jun. 2024
Master's Degree in Computer Science, specialization in Video Game Development — *Chicoutimi, Canada*

ENSIIE Paris-Saclay — Sep. 2021 – Jun. 2023
Engineering Degree in Computer Science, specialization in Digital Interaction — *Évry, France*

Lycée Fénelon Sainte-Marie — Sep. 2019 – Jun. 2021
*Preparatory Classes for French Grandes Écoles – PCSI, PC** — *Paris, France*

Experience

Albyon Studio — May 2024 – Present
VR / Gameplay Developer – Fixed-term contract, then permanent position — *Paris, France*

- Developed gameplay mechanics and VR interactions for several published VR titles: Bear on Boat, Bear Scouts, Loot and Plundr.
- Developed internal tools for developers and QA testers to streamline testing workflows, as well as tools for artists and designers to simplify asset integration in Unity.
- Developed *Witch Grove*, a cross-platform experience on Meta Horizon Worlds, featuring gacha mechanics and creature collection systems.

Widid VR — Jul. 2023 – Apr. 2024
Unity C# and VR Developer – Internship, then fixed-term contract — *Paris, France*

- Developed and integrated new VR interactions for *ReviVRe*, a wine-growing training simulation, enhancing immersion and the overall learning experience.
- Customized the XR Interaction Toolkit and developed custom locomotion mechanics, including a backdash system to improve movement precision in VR.
- Designed and implemented interactive behaviors tailored to the ergonomic and technical constraints of virtual reality.

Crimson XR — Jun. 2023 – Aug. 2023
Game Designer and Developer – Internship — *Évry-Courcouronnes, France*

- Developed a Mixed Reality interface and hand-tracking mechanics for a game targeting the Oculus Quest 2.
- Contributed to the design of a prototype presented to 8 VR arcades, helping validate the project's commercial potential and support fundraising efforts.

Personal Projects

Autobattle Arena – Unity, C#

- Designed and developed a 3D autobattler featuring a dynamic unit purchasing and management system, inspired by TFT and tower defense games.

Garden Gacha – Unity, C#, VR

- Created an immersive VR gardening game featuring gacha mechanics and random seed generation, promoting awareness of permaculture.

Sign VR – Unity, XR, Accessibility

- Developed a VR sign recognition system for real-time French Sign Language translation, supporting accessibility and sign language learning.

Game Jams

- Participated in several Game Jams, contributing to game design, prototyping, and development within collaborative teams and tight deadlines.

Skills

Programming Languages: C#, C++, Python, PHP, HTML/CSS, TypeScript | **Frameworks / Engines**: Unity, Unreal Engine, XR Interaction Toolkit

Tools: Git, Perforce, ClickUp, Trello, Blender, Cascadeur

Languages: French (Native), English (C2), Spanish (B2)
